

KEEP YOUR EYES ON THE PRIZE WITH VISIONEX®

Visionex provides your eyes with nutrients

to help maintain healthy visual performance and protect the delicate tissues of the eye from photo-oxidation, a key factor in age-related visual impairment. Lutein, zeaxanthin, and bilberry extract work together to protect the retina's functions in three ways:

- Visual acuity—the ability to focus on a target and see a non-moving target at a fixed distance
- Contrast sensitivity—the ability of your eyes to function in low light and distinguish objects from similarly colored or shaded backgrounds
- Glare recovery—the ability of your eyes to recover and/or react after coming in contact with bright light

Want to see what all the fuss is about? Visit www.USANA.com to learn more about Visionex and USANA's other award-winning products.

Contact your local USANA Associate for more information.

IF YOU COMPETE TO WIN, YOU HAVE TO FOCUS ON YOUR GOAL. YOU HAVE TO SEE THE TARGET. YOU HAVE TO EXECUTE YOUR SHOTS WITH PRECISION. YOU HAVE TO HAVE VISIONEX, USANA'S ADVANCED EYE HEALTH SUPPLEMENT.

"I had been looking for a product to help support my vision, and after careful research, I found a product I can trust. Since I have been taking Visionex, my vision seems to be clearer and sharper, and I have been shooting very well this year. I feel that Visionex meets my needs. And, with an athlete guarantee, I feel I can recommend this product to my students to give them a competitive edge."

—John Woolley, two-time world shooting champion
